THANKSGIVING SWEETS INSTRUCTIONS FOR STORING, HEATING AND SERVING

CLASSIC APPLE PIE

Keep in a cool area. Do not refrigerate. Can be served warm or at room temperature. To serve warm, heat at 350°F for 10-15 minutes.

BAKE-AT-HOME APPLE PIE

1) Pre-heat oven to 350°F

2) Remove pie from freezer, take out of pastry box and unwrap plastic. Set out at room temperature for 20 minutes. Place the pie on baking sheet and put it on the center rack of the oven.

3) For Large Pies: Bake 30 minutes. Rotate pie 90° so that pie bakes evenly on all sides and bake for an additional 30 minutes. Repeat rotation and baking two more times so that the pie has turned 4 times and baked for a total of 2 hours.

For Small Pies: Bake 30 minutes, rotate pie 180° so that the pie bakes evenly on all sides. Bake for an additional 30 minutes. Rotate one last time and finish baking for 20 minutes (for a total baking time of 80 minutes).

4) To test for doneness, insert paring knife into vent on top of pie. If the knife slides in easily, with no resistance from apples, the pie is done! The crust should be golden brown.

--The Clementine Classic Apple Pie will be extremely hot when it comes out of your oven. We recommend allowing it to cool for about one hour before serving.
